What are your relationships like? Are they mutual? Are they life-giving to you and to others? The Bishop's Workshop will focus on vulnerability, and how we must be vulnerable to reap the fruits of faith and trust. This applies to ourselves as well as to our congregations. Vulnerability and humility are the keys to our most important relationships inside and outside the church.

The bishop will speak to the larger group in the morning. The afternoon will consist of break-out sessions. Lunch provided.
